

A construction worker in a grey jumpsuit, orange safety harness, and white hard hat stands on a grid of steel reinforcement bars (rebar) at a construction site. In the background, another worker is visible near several vertical rebar columns under a cloudy sky.

CAPABILITY STATEMENT

COMPANY SUMMARY

ABOUT STCH PRODUCT

STCH Product Pty Ltd is a Sydney-based manufacturing and installation company with nearly 20 years of industry experience, specialising in architectural aluminium, steel, and glass solutions. We proudly deliver premium custom fabrications for residential, commercial, and Tier 1 infrastructure projects, with a reputation built on precision, integrity, and performance.

Our strength lies in our fully integrated operations, combining in-house manufacturing, certified installers, and a dedicated logistics fleet to ensure complete control, faster turnaround, and uncompromising quality. From concept to completion, we provide tailored solutions that exceed architectural and compliance standards.

Core Competencies

Delivering premium architectural solutions with precision, speed, and reliability

At STCH Product, our core competencies define our ability to consistently deliver high-end, custom-built aluminium, steel, and glass solutions. We combine in-house manufacturing, experienced staff, and a dedicated fleet to ensure fast turnaround, strict quality control, and seamless site coordination.

EXPERIENCED staff

Our team consists of highly trained installers, fabricators, and project managers, each qualified through TAFE and university-level education, with proven experience delivering for Tier 1 builders.

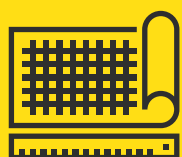

State-of-the-Art Equipment

We operate from a fully equipped Sydney-based manufacturing facility with advanced machinery, supported by a fleet including crane-equipped trucks and dedicated site utes.

Safety is our Priority

We are fully compliant with WHS regulations and implement site-specific SWMS, toolbox talks, and safety protocols on every project — ensuring zero compromise on safety.

Precision Built

From our patented roof shutter systems to custom steel and glass installations, our in-house manufacturing ensures every component is engineered to exacting standards and tailored to client needs.

DIFFERENTIATORS

What sets us apart from your competitors?

With nearly two decades of experience, STCH Product has become a trusted partner for Tier 1 and Tier 2 builders by consistently delivering premium metalwork solutions on time, with precision and care. Our success is rooted in a fully integrated operation that combines in-house fabrication, dedicated logistics, and certified installation teams, giving clients total control and confidence.

Competitive Advantages

- ✓ 100% Australian materials and manufacturing
- ✓ In-house fabrication and installation
- ✓ Dedicated fleet and logistics
- ✓ Award-winning performance

Projects

A showcase of our proven experience across Tier 1 and Tier 2 construction.

STCH Presents:

Project 1: Grand Hill by DASCO

STCH Product delivered all aluminium metalworks and glass products for 24 houses and 14 townhouses. Scope included pergolas, entry gates, vertical battens, privacy screens, glass balustrades, aluminium handrails, tennis court mesh, and pool fencing and gates. Client: DASCO | Sector: Residential Development

Project 2: Project Holsworthy

STCH Product supplied and installed frameless glass balustrades and designed a custom aluminium louvre system for this multi-residential build. All items were fabricated in-house and delivered with precision to meet architectural and compliance requirements. Client: Corben Construction | Sector: Multi-Residential

Project 3: Caringbah Apartments by QCM

Completed 350 metres of timber-look aluminium louvres fabricated and installed by STCH Product amongst other aluminium products. Custom powder coating and fixing systems were developed in-house. Client: Quality Construction Management | Sector: Large Scale Residential Apartments
